## ABOUT US

**Kissan Solar** is committed to providing affordable and sustainable solar energy solutions across **residential, commercial, and industrial sectors**. Our mission is to help customers **reduce** their electricity **bills** and enhance energy efficiency with our high-quality solar products.

We offer a comprehensive range of solar products, including solar panels, inverters, and batteries, designed to meet the energy needs of our diverse client base. Our expert team works closely with customers to develop customized, tailored solar solutions that align with their unique requirements.

From initial consultation to smooth installation and ongoing maintenance, Kissan Solar ensures a seamless process, delivering reliable and efficient energy solutions for long-term savings and sustainability.

we also offer specialized training programs for individuals interested in the renewable energy sector, equipping them with valuable skills for a growing industry.

At Kissan Solar, we prioritize customer satisfaction and are committed to delivering projects to the highest standards. Our expert team works closely with clients to create tailored solar solutions, ensuring a smooth installation and maintenance process.

Join us today and take part in building a greener, more energy-efficient future.

## OUR MISSION

At Kissan Solar Company, our mission is to make solar energy an affordable and accessible option for everyone. We are committed to controlling our costs effectively so that the savings are passed directly to you—our valued customers.

To ensure you receive the best systems available, we exclusively use high-quality components from Tier 1 and Tier 2 manufacturers, guaranteeing long-lasting performance and reliability.

## OUR GOAL

Our aim is to forge strong, lasting relationships with our customers by providing the same level of dedication and customization to every project.

Backed by superior customer service, we offer high-quality products and components. We strive to minimize the effort required from our customers, taking full responsibility for the entire process—from product explanation and installation to ongoing support and beyond.

## WHAT WE DO?

Our unique selling proposition (USP) lies in our ability to craft customized solutions that not only meet but exceed customer expectations—both in terms of budget and future needs. Our recommendations are built on years of experience and a deep understanding of the market, ensuring that we select the best products available.

Our experts guide you through every step of the process, ensuring you make an informed decision that fits your needs and budget. We are committed to recommending systems that will truly serve you in the long run.

Our team stays up to date with the latest REC values, FITs, government rebates, and environmental regulations. Passionate about renewable energy, each team member is highly skilled in their area of expertise, ensuring the highest quality solutions for you.

Our company has successfully installed a wide range of solar systems across the country, serving homeowners, industries, commercial establishments, and schools. We are proud to have built a loyal customer base and are eager to help you save money by generating your own energy to meet your needs—while also protecting the environment.

At Start Solar, we strive to be a strategic and collaborative partner for each client, committed to improving both the community and the environment.

# WE PROVIDE

## **EPC - TURNKEY**

We provide end-to-end EPC turnkey solutions, managing design, procurement, installation, and commissioning for seamless solar project delivery.

## **DETAILED SOLAR DESIGNING**

Detailed Solar's component layout designing for ground mounted and rooftop solar power plant in MWs and KWs. Structure Layout, Staad Analysis, Electrical, Civil and Mechanical Layout etc

## **AMC – CLEANING SERVICE**

We provide comprehensive services including installation, maintenance, cleaning, and monitoring for solar power systems to ensure optimal performance.

## **SOLAR TRAINING**

We offer expert solar training programs covering system installation, maintenance, design, and troubleshooting to equip professionals with essential skills for the solar industry

## OUR SERVICES

# ROOFTOP SOLAR SOLUTIONS

A rooftop solar system is an efficient power generation solution. Leveraging our expertise and cutting-edge technology, we provide cost-effective rooftop solar solutions.

Transform your rooftop into a solar power plant, an excellent source of renewable energy for both commercial and residential consumers.

### Benefits

- Efficiency with Trust
- Self-sufficient source of energy
- Uninterrupted power supply with minimal downtime
- Eliminate utility grid and power company bills
- Independent from non-renewable energy sources

## OUR SERVICES

# GROUND- MOUNTED SOLAR SOLUTIONS

**KISSAN SOLAR** offers customized ground-mounted solar solutions, designed and engineered according to each client's unique site conditions. Through meticulous project planning and precise execution, our solutions are tailored to meet your specific requirements.

We provide a wide range of ground-mounted solar options, offering flexibility to support various types of PV modules.

### Benefits

- Best value through economy of scale, reducing installation, material, and labor costs
- Streamlined, pre-assembled installation for optimal strength and durability
- Commitment to sustainability and social responsibility in achieving renewable energy targets

## OUR SERVICES

### EPC SERVICES

We provide turnkey solar EPC solutions with a customer-centric approach and technical expertise, delivering customized end-to-end solar systems.

By minimizing grid consumption, individuals can significantly reduce their carbon footprint. We offer top-quality Solar PV installations, carried out by certified installers.

Book a free solar site analysis today. Our experts will visit to evaluate your available space, budget, and guide you through the installation process, available incentives, and the benefits of net metering.

#### **Benefits**

- Solar PV modules have no moving parts, requiring minimal maintenance.
- Available in various dimensions, allowing space-saving installations with maximum output from a small area.
- Declining prices of solar cells and components, along with government incentives, make solar an attractive and affordable investment for both residential and commercial properties.

## OUR SERVICES

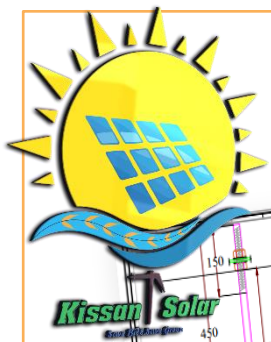

# OPERATIONS & MAINTENANCE SERVICE

**KISSAN SOLAR** offers a comprehensive range of services tailored to your plant's sourcing strategy, infrastructure, and expertise in the solar energy sector. Our team of experts ensures optimal operation and maintenance of solar power systems, providing regular reports on solar power generation.

We specialize in project commissioning and implementing systems to retrieve and manage solar power generation data, enhancing the effectiveness of our **Operations & Maintenance (O&M)** services.

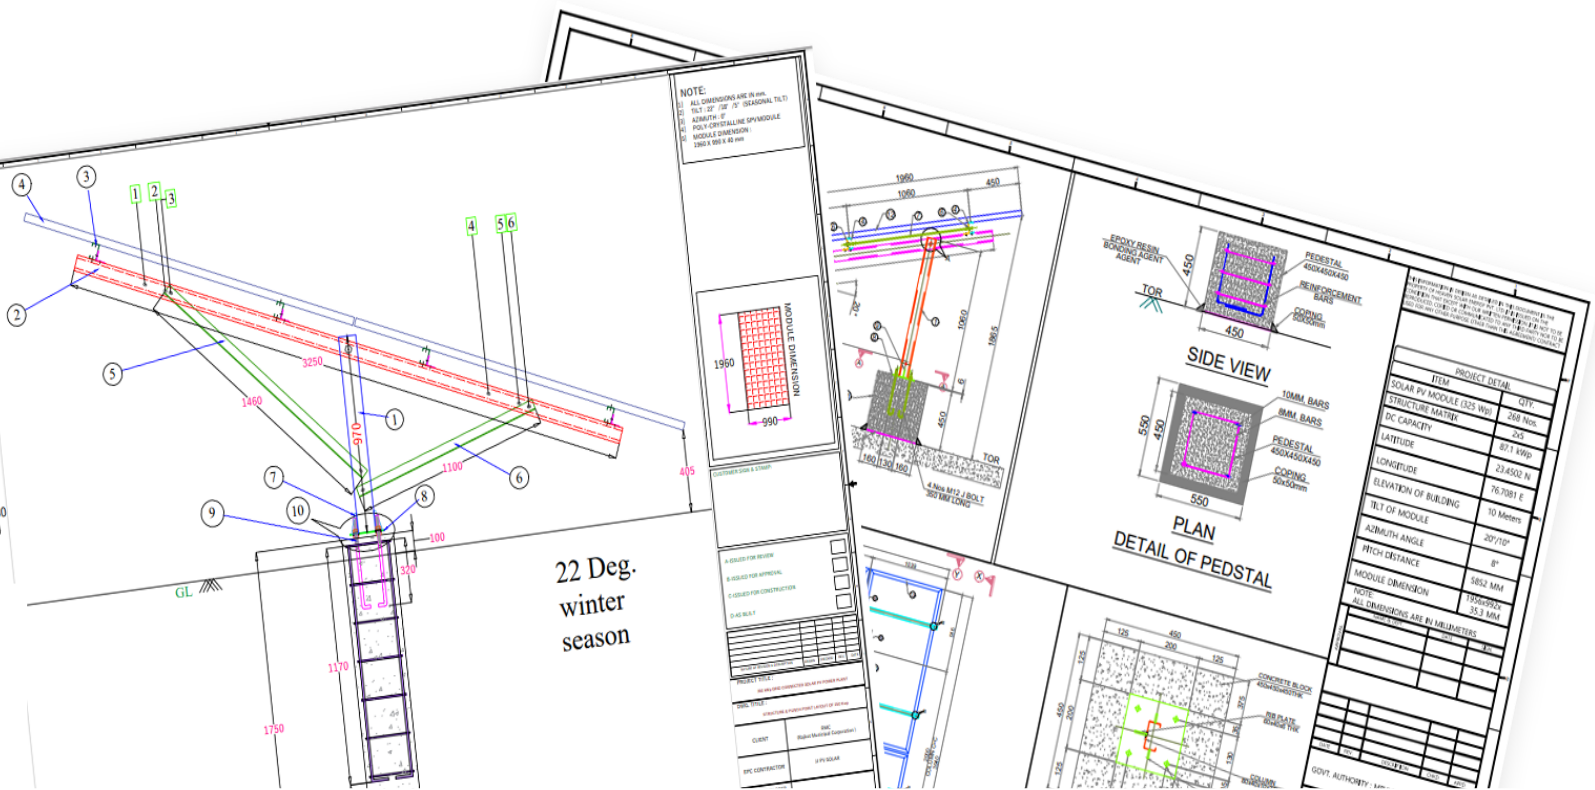

### Benefits

- Real-time plant monitoring and control for optimal performance.
- Accurate forecasting and scheduling for efficient energy management.
- Comprehensive end-to-end power plant maintenance, including preventive and corrective services.
- Efficient manpower deployment and well-organized maintenance schedules.
- Scheduled night-time maintenance to minimize impact during low production periods.

## OUR SERVICES

## DETAILED SOLAR DESIGNING

**KISSAN SOLAR** provides detailed solar system designs for both rooftop and ground-mounted installations in kW and MW. Our process includes site assessments, system sizing, panel layout optimization, and customized mounting solutions. We ensure efficient electrical designs, proper wiring, and integration with the grid, maximizing energy output while considering structural integrity, environmental factors, and regulatory compliance for both residential and commercial projects.

- ✓ Site Assessment and Feasibility Study
- ✓ System Sizing and Capacity Calculation
- ✓ Solar Panel Configuration and Layout
- ✓ Mounting Structure Design
- ✓ Electrical System Design
- ✓ Protection and Safety Systems
- ✓ Monitoring and Data Management
- ✓ Structural and Load Analysis
- ✓ Civil Layout

## OUR SERVICES

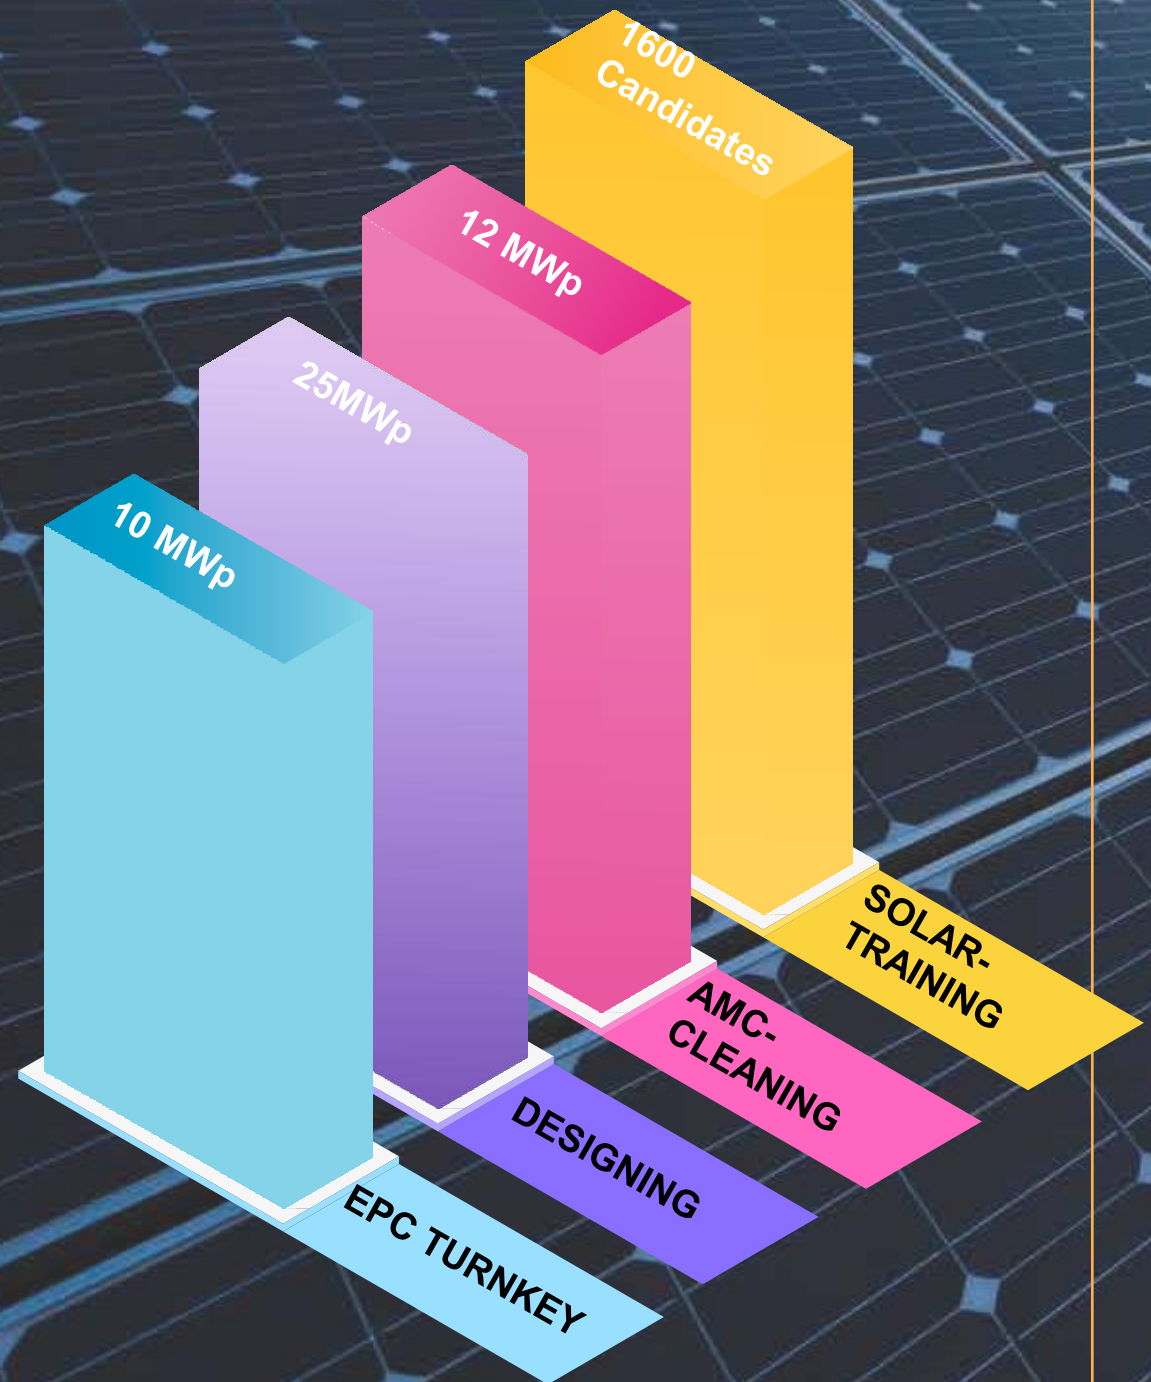

### SOLAR TRAINING

**Solar Training** at KISSAN SOLAR provides comprehensive programs designed to equip individuals with the knowledge and skills needed to succeed in the solar energy industry. Our training covers areas such as solar panel installation, system design, maintenance, troubleshooting, and energy efficiency. Whether you're a beginner or looking to enhance your expertise, our hands-on training ensures practical experience for real-world applications.

- ✓ Solar Panel Installation
- ✓ System Design
- ✓ Cable & Electrical Setup
- ✓ Maintenance & Troubleshooting
- ✓ Live Installation Training
- ✓ Software Training ( Pvsyst, SketchUp )
- ✓ Job Placement
